VU500 UPRIGHT VACUUM

The Advance VU500™ is an easy-to-use, easy-to-maintain upright vacuum designed to withstand stringent environmental requirements. With an automatic self-adjusting brush height, this vacuum is ideal for cleaning medium and low cut piles.

The VU500 delivers the reliability and performance you need in an upright vacuum. Offering an automatic, self-adjusting brush height, superior maneuverability and three stages of filtration for excellent indoor air quality, the VU500 will increase your cleaning efficiency and help reduce your cleaning costs.

- Automatic, self-adjusting brush height makes it easy to transition between different floor surfaces
- Unique design features provide exceptional maneuverability in tight spaces, increasing operator efficiency
- Three-stage filtration system with true H.E.P.A. filtration that traps at least 99.97% of dust, pollen, mold, bacteria and other airborne particles $\geq .3$ microns, improving indoor air quality for greater occupant comfort
- Meets LEED requirements for indoor cleaning with CRI Seal of Approval (Silver) and low sound level

With exceptional performance, a full set of features, and a modern design the VU500™ offers customers what we consider best in class value. **Call now to order from WCP Solutions.**

VU500 PRODUCT FEATURES

Designed using innovative technologies that increase productivity and drive down the cost to clean.
