DIE MARKS MUST PRINT ON REVERSE

Die 216 (#10 booklet (9-1/2 x 12-5/8) os/ss)

Outside Ink Holdout

Outside Ink Holdout

- Please follow the exact die lines. It is important to keep the scale at 100%.
 - It is essential that the grain run in the direction specified.
 - The position of the envelope is critical to insure proper breakout in the die cutting process.
 - Minor variations may occur in the die cutting and folding process. For best results, follow our layout.
 - Envelope machines cannot fold perfect borders or bleeds. Designs with bleeds must wrap 1/8" around to back.
 - This envelope may not be suitable for solid coverage envelopes where the ink extends beyond the cut lines. If you are running a full flood, please add gripper and color bar dimensions to the sheet size.
 - Please mark your guide and gripper. Make sure that the stock is jogged.
 - Knockout areas must be free of inks and varnishes otherwise glue, or gum may fail. Please call if you require a special layout for knockouts.
- Thank you.
